Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### **DETAILED ACTION**

Claims 3, 4, 12 and 15 are pending in the present application. This Office action is in response to Applicant's amendment and remarks filed 20 October 2003.

#### ***Response to Amendment***

The rejection of claims 3, 4, 12 and 15 under 35 U.S.C. 112, first paragraph has been withdrawn in view of Applicant's amendment and remarks filed 20 October 2003.

The rejection of claims 5, 11, 13 and 14 is moot due to their cancellation in Applicant's amendment.

#### ***New Grounds of Rejection Necessitated by Applicant's Amendment***

##### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 3, 4 and 12 are rejected under 35 U.S.C. 102(b) as being anticipated by Baker et al. (Journal of Rheumatology Vol.16 no.1 1989).

The invention of the present claims are drawn to methods of identifying agents involved in mitochondrial function comprising comparing ATP synthesis in biological samples comprising chondrocytes in the presence or absence of a candidate agent.

Baker et al. disclose a method wherein ATP was measured articular cartilage samples, which includes chondrocytes, in the presence or absence of an agent, H<sub>2</sub>O<sub>2</sub> (Baker et al., abstract ; page 8, column 2 paragraph 1-2 ; page 9-10, bridging paragraph).

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 3 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 3 is rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential steps, such omission amounting to a gap between the steps. See MPEP § 2172.01. The last clause of the present claim is drawn to "determining the suitability of said candidate agent" while the preamble of the claim is drawn to a method of "identifying" an agent. There is a logical disconnect between the last step of determining and the preamble reciting the identification of an agent.

### ***Allowable Subject Matter***

Claim 15 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
